

Residents! Check it Out! A FREE & Wonderful Way to Watch Nature from Your Own Living Area!

Enjoy nature from the comfort of home

It's a great way to improve mood, reduce agitation and anxiety, and improve quality of life overall.

Many people enjoy nature scenes and observing animals in their natural habitat but are limited by mobility or what's near their window or home.

We found a wonderful website called **Explore.org** that has live camera feeds from places all around the world. The best part is that it's completely free for you to watch.

Anyone can sit in their favorite spot at home and watch horses in Kentucky, a tropical reef aquarium in California, the Northern Lights in Canada, pandas in China, beautiful sunsets in Hawaii, and more!

We explain how to use the **Explore.org** website and share some of our favorite live camera feeds.

Brought to You by Your Broihahn Management Team!
